Subject: Microsoft Settlement

To Whom It May Concern:

Enough already! A settlement has been reached, Microsoft has been slapped "in the manner that is appropriate".

What Sun, Netscape, Oracle, AOL, et al need to do is produce a superior product and THEN and ONLY THEN will they

gain the increased market share they desire. The courts ARE NOT the place for determining what's best for the consumer

and business, the marketplace is. Let's stop the drag and keep those people working! All a prolonged court battle will

produce are increased layoffs and job losses.

Respectfully,
